

DayBreak Community Church

COVID-19 Guidelines for Community Groups

Stage 2 Alberta Relaunch

These are the measures required by Community Groups, who rent the church facility during Stage 2 of Alberta's Relaunch:

The Community Group must book space at the church ahead of time with the office and a list of participants must be kept for two weeks following the event. Groups are restricted to times/dates booked and use is strictly confined to the area booked.

Group leader responsibilities:

- Ensure that no participants are experiencing the [most common symptoms of COVID-19](#) and ensure that participants have read and agree to follow the church's rules posted in the DayBreak facility.
- Participants must respect a distance of at least 2 meters or maintain appropriate barriers between members of different households.
- It is highly recommended that all participants wear masks when it is difficult to respect the 2 meter distance.
- Community Groups must provide their own disinfecting supplies. All high touch/shared areas (all hard surfaces, doorknobs, light switches, bathroom taps) must be disinfected before leaving the DayBreak facility.
- Any pot-luck activities are prohibited at this stage, food and drinks must be served in pre-packaged or individualized portions.
- All participants must bring their own bottle of water.
- Ensure that participants remain within the area booked.
